

The All–New Kia

The Power to Surprise

STAY CLOSER TO THE ROAD

The design of the All-New Kia Stinger is a labour of passion. From the progressive interpretation of the signature Kia grille to the commanding coupé-shaped rear, every crafted detail translates into pure driving pleasure. The All-New Kia Stinger takes sportiness and exclusivity to the highest level with finesse and eye-catching details all round.

Dark Chrome Coated Door Mirrors The high-quality finish of the mirrors sets an athletic tone. LED Rear Tail Lights and Twin or Quad Exhaust Pipes LED rear lights, inherited from the GT concept car and stylish oval-shaped dual twin exhaust pipes. 19" alloy wheels with dark chrome finish The striking 19" alloy wheels with eye-catching dark chrome finish are designed to appeal to modernday GT enthusiasts. Brembo® red brake calipers Brembo® red brake calipers on the GT make the Stinger look fast, even when standing still. LED Headlights with Automatic Levelling and LED Daytime Running Lights The sharp iconic shape of the headlights draw you in – and reveals the latest in LED technology. The dark chrome bezels add to the sophisticated look.

BE INSPIRED

Pure yet exclusive. The All-New Stinger takes its inspiration from sporty GT styling paired with the latest in driver-assistance technology. The striking interior features circular aircraft-style vents, metal-ringed gauges and satin chrome trim. From the low-slung driver's seat is fitted with soft nappa leather as standard on the 'GT S' and you'll enjoy access to essential information – courtesy of the supervision cluster in the instrument panel or the customisable Head-Up Display. The 8" navigation screen in the centre console covers your multimedia needs.

GET READY TO TAKE CONTROL

The All-New Kia Stinger is designed around you with extrasupportive seats and technology to make even the longest journey effortless.

▶ Power Bolster Support (Driver) 'GT S' only

The Power Bolster Support (Driver) ensures maximum lateral support. The Bolster includes Aircell functionalitu for added comfort.

▶ Power Aircell Lumbar Support (Driver) controlled by air pressure 'GT S' only

Ideal for long journeys, the Power Aircell Lumbar Support (Driver) controlled by air pressure helps you adjust seatback settings for maximum lower back comfort and support.

▶ Ventilated Front Seats and **Heated Outer Rear Seats** 'GT-Line S' and 'GT S'

Ventilated Front Seats and Heated Outer Rear Seats help to keep occupants more comfortable on long journeys.

Air vents The metal-ringed circular vents add to the sporty feel of the cockpit. **Leather-wrapped D-shaped steering wheel** Reflecting the sporty character, the D-shaped steering wheel features perforated leather for added grip. **Aluminium trim** The aluminium trim on the door garnish, centre console and pedals welcome you in true performance-car style. **Exclusive sumptuous leather seat upholstery** Beautiful, soft to the touch nappa leather seats as well as the bold GT logo on the headrests are standard on the GT S only. **Paddle shift levers** The paddle shift levers allow you to change gears swiftly without taking your hands off the steering wheel. It also makes dynamic driving effortless, as you can increase torque faster, while staying in control of shift points.

Details within this brochure are not intended to be a description of the vehicle but are simply a general overview. For a more detailed description please speak to your Kia dealer.

14 If a particular item is important to you, please make sure it is mentioned, in writing, when ordering your car. This disclaimer does not affect your statutory rights. Images shown are for illustrative purposes only and not to UK specification. Features shown are not necessarily standard across the range. Aluminium cover shown in centre console is not to UK specification.

SIT BACK AND ENJOY THE JOURNEY

The days when performance cars were sparse racing machines are long gone. In fact, one major benefit of the All–New Stinger's long wheelbase is the spacious cabin. It ensures that all passengers can enjoy the welcoming space of this sleek and uncluttered fastback.

Also, the individually adjustable and comfortable eight-way power seat for the driver and the eight-way power seat for the front passenger give you all the comfort and support you need – regardless of whether you're recreating your own Grand Tour or commuting to work.

Rear cabin roominess The All-New Stinger offers ample headroom, shoulder room and legroom for rear passengers to sit comfortably and stretch out.

Wide sunroof A wide, tilting and gliding, one-touch sunroof is available on the 'GT-Line 2' and 'GT S' only. One touch of a button allows plenty of sunlight and fresh air into the welcoming cabin.

PLENTY OF SPACE

A car made, above all, for the thrill of the road, you'll be surprised by the All-New Kia Stinger's practical side. The spacious boot offers 406 litres of luggage room while the hatch lifts up to reveal a broad loading area for wide objects. To help you accommodate longer items or additional luggage, the 60:40 rear seats split and fold.

406 litres luggage capacity

ACCELERATE YOUR HEART BEAT

In the All-New Stinger, all the benefits of rear-wheel drive – lively acceleration, higher agility and better handling – come together for stunning effect. Even at low engine speed, the rear-wheel propulsion delivers a uniquely sporty driving experience. While eight-speed automatic transmission ensures smooth gear changes.

3.3 litre V6 twin-turbocharged engine

0-60 MPH

Max. speed I with the 3.3 T-GDi engine

Max. power

The most powerful V6 petrol engine with a twin-turbocharger in the Kia range responds and accelerates beautifully, while achieving considerable torque over a broad rpm range. Bespoke intake and exhaust systems also add to the exceptional performance.

- **2.0 T-GDi engine** The impressively responsive 2.0 T-GDi petrol engine delivers 244 bhp for high performance, and a dynamic and thrilling ride with a maximum speed of 149 mph.
- **2.2 CRDi engine** This 197 bhp 2.2 CRDi diesel engine combines a sprightly performance capable of 143 mph top speed with efficiency and reduced noise and vibration.

▶ Drive Mode Select (DMS)

DMS changes the driving characteristics of engine, transmission, suspension and steering. It can even alter the engine sound. Choose between five drive modes – Comfort, the default mode for smooth acceleration and Sport for a more dynamic ride, Sport+ for dynamic driving with less stabilisation, Eco to save fuel and Smart for intelligent adjustments of driving characteristics.

▶ 19-inch Continental tyres

Standard on the 'GT S', 19-inch wheels with Continental tyres offer enhanced grip.

► Rack-mounted Motor Driven Power Steering (R-MDPS)

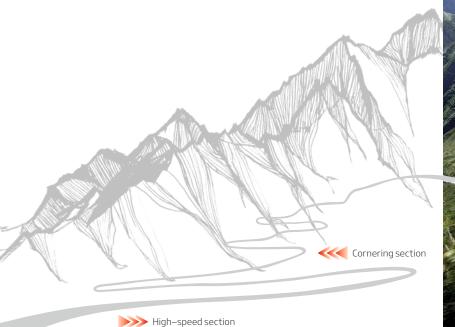

R-MDPS sophisticated computer management adjusts the steering assistance when appropriate, giving you greater control and feedback, while saving power and fuel. It increases assistance at low speed manoeuvres and lightens it at higher speeds.

SHAPE EVERY CORNER YOUR WAY

As a true performance car, you'll enjoy the responsiveness the All-New Stinger displays on the road. Equally, it offers intelligent support whenever you need or demand it. Choose between five Electronic-Controlled Suspension drive modes to suit your taste and driving conditions, each with its own coordinated combination of dynamic characteristics.

GO WITH THE FLOW CUT THROUGH THE AIR

Starting with a clean slate and inspired by the GT concept car the All-New Kia Stinger combines iconic beauty and the latest in aerodynamic technology and noise minimisation. While the exterior is shaped to minimise drag and to maximise stability and control, the structure and interior is designed to isolate passengers from noise and vibrations.

Front bumper with integrated air curtain The All-New Stinger's breathtaking front serves a clear purpose; the front bumper's integrated air curtain helps manage airflow, reduce drag and direct cooling air to the radiator and front brakes. Equally, the lower apertures direct airflow to the wheel wells, which reduces drag and helps cool the brakes. Aside from fuel savings and noise reduction, the front design also contributes to the car's stabilitu.

Rear integrated diffuser An integrated diffuser panel under the rear bumper helps control airflow and prevents the dual exhaust pipes from creating drag under the car. It pays homage to racing diffusers which lower the turbulence that can occur when low-pressure air under the car meets higher pressure ambient air.

Boot lid with spoiler effect To improve stability and optimise airflow that forms behind the All-New Stinger when travelling at higher speeds, the trailing edge of the boot lid is arched, providing a spoiler effect – and a stunning finale to the All-New Stinger's silhoutte.

Multiple undercovers and aerodynamic effects While the aerodynamic aspects of the silhouette are plain to see, the All-New Stinger also boasts vital drag reduction features that improve airflow underneath the car. It uses a system of sturdy undercovers, below the engine and transmission, each side of the cabin and each side of the rear suspension. These covers reduce the flow resistance on the underside of the body when travelling at higher speeds.

Noise-Vibration-Harshness (NVH) Inside and out, every element of the All-New Stinger has been engineered to reduce noise, vibrations and harshness. The engine area and dashboard feature extra insulation, while the joints of body pillars and frame boast additional padding. New insulation materials, a reconfigured exhaust and stiffened rear cross-member also add to the quiet, smooth ride. Side mirrors and doors are sculpted to minimise noise and drag. Plus the 2.0 litre T-GDi and 2.2 CRDi engines use a Centrifugal Pendulum Absorber to reduce vibration.

Details within this brochure are not intended to be a description of the vehicle but are simply a general overview. For a more detailed description please speak to your Kia dealer. If a particular item is important to you, please make sure it is mentioned, in writing, when ordering your car. This disclaimer does not affect your statutory rights. Images shown are for illustrative purposes only and not to UK specification. Features shown are not necessarily standard across the range.

▶ Strong tailgate opening

The tailgate features highly robust box-section joints between rear quarter panels, back panel and hatch rim to improve stiffness.

► Rear wing reinforcement connections

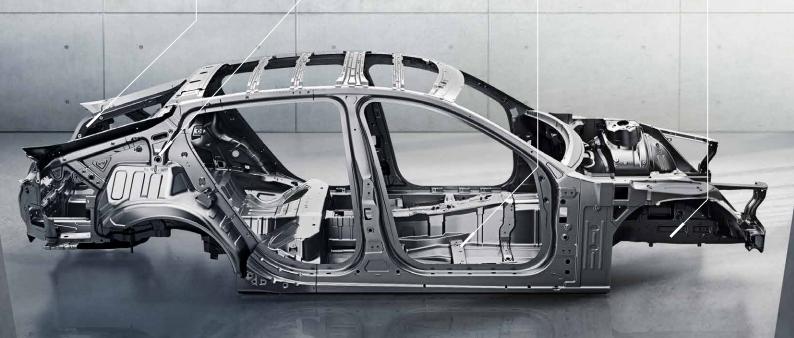

The reinforced rear wing above the rear wheels now join the body at a higher point for improved stiffness.

Stronger underbody rail materials

AHSS reinforces the safety cage in seat cross-members, vertical members and side sill inner panels.

► Stiff sub-frame panel joints

Within sub-frame side members, bulkheads join four surfaces instead of the conventional three, maximising stiffness.

Advanced High Strength Steel (AHSS) and hot-stamped steel

The All-New Kia Stinger is fitted extensively with Advanced High Strength Steel (AHSS) for exceptional rigidity. It also features hot-stamping technology to further increase robustness in more crucial areas, including single-piece door-side frame sections that help disperse impact forces in a collision.

PROTECT YOURSELF WITH THE BEST

The All-New Kia Stinger's thrill of driving is matched by the exceptional level of protection this fastback offers. Every part of the chassis and body is designed to keep passengers safe, working hand-in-hand with optimised aerodynamics, performance and ride comfort.

Seven airbags To help protect occupants and potentially reduce injuries in the event of a collision, the All-New Stinger offers driver and front passenger airbags, two front-side airbags, two side-curtain airbags, and a driver's knee airbag as standard.

Knee airbag The driver's knee airbag helps minimise impact and injury to the driver's knees in the event of a collision.

Active Hood Lift System (AHLS) To help protect pedestrians from serious head injury in the event of a collision, AHLS can detect impact with a pedestrian and automatically raise the bonnet. This allows the deformation space to be increased and the risk of injury to be considerably reduced.

LET INTELLIGENCE GUIDE YOU

Kia's technologies combine Kia's ADAS (Advanced Driver Assistance Systems), a series of intelligent safety innovations that help reduce many of the inherent dangers and stresses of driving on today's roads. Ultimately, they lead to improved on-road safety and hassle-free, enjoyable driving.

Safety

Kia's technologies recognise dangers at an early stage thanks to an intrinsic system of sensors and cameras. It is designed to improve safety by pre-emptively helping to eliminate the risk of accidents.

Convenience

Kia's technologies are designed to offer as much information as uou want, and as little as you need to maximise convenience allowing you to stay focused on essential tasks instead of more tiresome chores.

Kia's technologies help improve quality of life by supporting more fuel- and time-efficient driving.

Details within this brochure are not intended to be a description of the vehicle but are simply a general overview. For a more detailed description please speak to your Kia dealer. Driving assist systems

360° Around View Monitor

This intuitive system combines four wide- To help you park safely and confidently, angle images from cameras at the front, ultrasonic sensors are mounted on the rear and sides of the vehicle, to give you a front and rear bumpers - these warnings comprehensive bird's eye view of the space can help you avoid contact and position around the vehicle while parking or moving the wheels properly when manoeuvring at speeds below 12 mph.

Front and Rear Parking Sensors

into tight spaces.

Advanced Smart Crise Control Autonomous Emergency Braking (AEB) Function (ASCC) & Speed Limiter

AEB uses camera and radar data to detect vehicles or pedestrians in the vehicle's path This system uses a radar sensor at the and takes action to help avert a potential collision. If it detects a collision risk, it warns front of the vehicle to monitor the distance to the vehicle ahead. If the the driver, and can even apply the brakes vehicle ahead speeds up, the All-New automatically to minimise any damage.

Lane Keep Assist System Driver Attention Warning Speed Limit (LKAS)

If you start drifting out of your lane, LKAS alerts you and even steers you back to your original position.

(DAW)

The system detects when (SLIF) you lose concentration while SLIF helps you stay withdriving, by monitoring vehicle in the speed limits. Using and driver behaviour. If it's the camera on the windtime to take a break, DAW screen, it reads speed emits an audible alert and limits and overtaking displays a warning symbol on restrictions, and displays the instrument panel.

Information Function

the information clearly on the navigation screen and cluster.

Stinger accelerates up to the set speed or one of four preset following distances. If the vehicle in front slows down and the predetermined safe distance cannot be maintained, the system will reduce the

speed, or even bring the car to a stop.

with Intelligent Stop and Go

8" screen navigation system The sleek navigation system comes with a large 8" floating touchscreen for effortless multimedia access. It keeps you on track with navigation, real-time updates and much more. Plus, it also connects to the sound system.

STAY TUNED TO YOUR WORLD

When the open road beckons, the All-New Stinger helps you focus on enjoying the journey thanks to sophisticated and convenient technology. From the 8" screen navigation system to the supervision cluster – all your vital sources of information are close at hand and intuitive to use.

7" Supervision Cluster with LCD TDT Colour Display The high-definition 7-inch TFT LCD in the supervision cluster provides customisable data essentials – from average fuel economy to turn-by-turn navigation information.

Wireless Mobile Phone Charger 'GT-Line S' and 'GT S' only** Enjoy convenient, cable-free charging and place your compatible smartphone on the wireless phone charger on the centre console. It even alerts you if a device is left on the charger, when you exit the vehicle.

^{**} Please check with your dealer for mobile phone compatibility

WHERE? WHEN? HOW? THE ANSWER IS HERE.

Our new navigation system with Kia's Connected Services powered by TomTom takes reliable route guidance to the next level of accuracy and excellence. It keeps you in touch with the outside world and offers more handy information than ever. At the heart is a unit that enables the All-New Stinger's navigation system to connect to the Internet through your smartphone.*

Kia's innovative hotspot app uses your Android phone's Bluetooth to detect when a Kia navigation system is in range. It then switches on the hotspot to connect to the navigation system and turns it off again when the communication with the car is interrupted or stopped – making it even more convenient to use Kia's Connected Services.

1. Live traffic**

The navigation system delivers highly accurate live traffic information that is updated every two minutes, so you know exactly where traffic is running smoothly, or which areas to avoid. When things get busy, the system lets you know and suggests alternative routes.

2. Speed cameras**

You'll also be alerted to a whole range of speed cameras, including fixed and stationary ones, as well as restricted access zones. The system can even take into account areas where accidents are particularly common, and warn you about these accident black spots.

3. Local search

If you're looking for a sushi restaurant, a supermarket or a particular place to meet, simply select Local Search. The database contains 500 searchable categories, 25,000 keywords and 250,000 locations to ensure you find what you need.

4. Weather forecast

Is your weekend away going to be sunny or a washout? Better check the weather forecast. Just type in your destination to view a four-day summary, complete with minimum and maximum temperatures, wind speed and chances of sun or rain.

androidauto

Android Auto[™] is designed to keep you perfectly connected to your phone – while minimising distractions so you stay safe on the road. The simple, intuitive interface lets you access features like Google Maps, apps, music and voice control, and automatically organises info into simple cards that appear just when they're needed.

To use AndroidAuto™ you need an Android phone running 5.0 (Iollipop) or higher. When you connect your Android phone, AndriodAuto™ will display your applications on the car's screen.

Maps – let Google maps lead the way. It's easy to get to your destination with free voice—guided navigation. live traffic information, lane guidance and more music – with on-demand access to 40 million songs. Google Play music allows you to stream endless music on the road.

Communication – make phone calls or send and receive messages whilst keeping your hands on the wheel.

Voice – just say the word – with superior speech technology which makes controlling everything with your voice fast and easy.

Apps – AndroidAuto™ makes it easy to access your favourite apps and content in your car.

Apple $CarPlay^{\mathbb{M}}$ is a smart, safe way to use your iPhone while driving. It takes all the things you might want to do, and puts them into your car's display, so you can get directions, make a call and listen to music – all while staying focused on the road.

Apple CarPlay features Siri voice control and is specially designed for driving scenarios. It also works with the car's controls – buttons, touchpad or touchscreen and the apps themselves have been reimagined for the car so you can use them safely while your eyes and hands stay focused on the road and the steering wheel. Make calls, return missed calls and listen to voicemail. Siri can help you do all these things. Siri can also read, reply and send text messages for you, so you never have to look at your iPhone while driving. You can also access all your content from iTunes and additional audio apps using your car's built-in controls.

TURN UP THE EXCITEMENT

This Gran Turismo lets you celebrate driving in style. With the perfect sound track – courtesy of the Harman Kardon® sound system.

Enjoy your All-New Kia Stinger with the best quality in-car technology - Harman CLARI-FI™:

- ▶ Compressing audio files can discard up to 90% of the original audio content captured in the studio.
- ► Clari-Fl automatically analyses and improves the audio quality of all types of compressed, digital music sources.
- ▶ It transforms the listening experience back to a re-compression era by restoring a lost signal.
- ▶ Delivers a rich, uncompromised listening experience from any compressed music source

Harman QUANTUMLOGIC™ SURROUND:

- ▶ QuantumLogic[™] Surround Sound technology creates an unprecedented 5.1 channel surround sound listening experience from any mono, stereo, or multi-channel signal source.
- ▶ Revolutionary new audio algorithms extract signal streams and impulse responses from the original recording and give audio tracks a natural yet controlled sound quality.
- lt is ready to work with all system architectures and only uses sources from the original material.

Customisable Head-Up Display (HUD)

To help keep your eyes on the road, the height-adjustable colour Head-Up Display (HUD) shows key driving information reflected on the windscreen. It includes speed, turn-by-turn navigation, smart cruise control settings, Intelligent Speed Limit Warning and Blind Spot Detection information.
